Subject: _____

Candidate Number: _____

3985

Candidate Name: _____

王恒翌

Signature: _____

Frankie 王恒翌

Do not
write in
this
margin

1. (a) int, double, char, boolean

(b) invalid, valid, invalid, valid

(c) ~~Hello world~~ ~~Helloworld~~ Helloworld, !
print() will not start a new line, print(\n) will.

2.

(a) ~~2~~ 21

(b) a

(c) Information

(d) 1

(e) (12, 21)

(f) -1, 21, -1

(g) INFORMATION TECHNOLOGY

(h) Computer Technology

Q3.	line	x(global)	y(global)	y(local)	output
(a)	3	5	2		
	9	8	2	10	25
	14	5	10	10	21
	20	8	13	2	28

(b) The value of global variable is defined outside.
When we use update(), the function will use the local value of the variable. This is called shadowing.

Q4

(a) the increaseScore() is not defined as a local variable.

(b) line 4 ~ line 6
static void ~~increaseScore()~~ increaseScore() {
int score = score + 10; // local variable

Q5 public static void main {
int Age = 5;
double height = 1.68;
String name = "Simon"
System.out.println (s. charAt 6)
